

# About the Journal

## Yantu Gongcheng Xuebao/Chinese Journal of Geotechnical Engineering

**Abbreviation:** Yantu Gongcheng Xuebao/  
Chin. J. Geotech. Eng.

**Review Process:** Peer Double Blind

**Publication Type:** Journal

**Open Access:** No

**Journal Scope:** Geotechnical Engineering, Engineering  
Geology Civil Engineering and other Engineering disciplines.

**Abstracting and Indexing:** Scopus, Aerospace Database, Civil  
Engineering Abstracts, Metadex, Communication Abstracts,  
zbMATH, Google Scholar, Ei Compendex.

*Founded in 1979, this journal is an academic science and technology journal jointly sponsored by China Hydraulic Engineering Society, China Civil Engineering Society, Chinese Mechanics Society, China Architectural Society, China Hydropower Engineering Society, and China Vibration Engineering Society. This journal has been recognized as a core journal by "Overview of Chinese Core Journals" for many years, and ranks in the forefront of architectural core journals. Papers and Citation Database"; this journal is included in the "Chinese Science Citation Database" of the Chinese Academy of Sciences; this journal is included in the "China Knowledge Network" and the "Chinese Academic Journals Comprehensive Evaluation Database"; this journal is included in the "Engineering Index Ei Compendex Database" and "Japan Science and Technology Agency Database JST" and other international databases.*

**Yantu Gongcheng Xuebao/Chinese Journal of Geotechnical Engineering** is a journal covering the technologies/fields/categories related to **Geotechnical Engineering and Engineering Geology (Q2)**. It is published by **Chinese Society of Civil Engineering**. The overall rank of Yantu Gongcheng Xuebao/Chinese Journal of Geotechnical Engineering is **9026**. According to **SCImago Journal Rank (SJR)**, this journal is ranked **0.559**. SCImago Journal Rank is an indicator, which measures the scientific influence of journals. It considers the number of citations received by a journal and the importance of the journals from where these citations come. SJR acts as an alternative to the Journal Impact Factor (or an average number of citations received in last 2 years). This journal has an **h-index** of **49**. The **best quartile** for this journal is **Q2**.
